

Ajay Singh

Contact@ajaysingh.ca | 647-544-3302

Website & Digital Marketing Specialist with 5+ years managing website projects end to end, from client discovery and custom UI/UX design through development, SEO, and launch. Skilled in Figma, React, CMS platforms, GA4, GTM, and CRO, with growing experience building AI-powered tools and agents to streamline content and development workflows. Proven track record improving UX and conversion performance across healthcare, education, and startup clients.

EXPERIENCE

Web Strategy Specialist, Levitate

Jun 2026 – Present

- Own the end-to-end lifecycle of client web projects, from discovery and requirements gathering through design pitches, build, and launch, serving as the primary client point of contact throughout
- Design custom website UI/UX tailored to each client's brand and goals, going beyond templated builds to plan navigation, information architecture, and user journeys from the ground up
- Leverage AI-assisted tools to accelerate content drafting and front-end development, pairing them with hands-on coding to speed up delivery without sacrificing quality
- Coordinate and implement foundational SEO strategy to improve site visibility and performance for client websites
- Act as the liaison between clients and the design team, managing timelines, feedback loops, and final deliverables to keep projects on schedule and aligned with client vision
- Lead QA to ensure final builds meet functional and aesthetic standards before go-live

Web Designer & Digital Strategist, BoomerangFX

Dec 2023 – Present

- Led end-to-end strategy, design, and development for 50+ B2C websites serving med spa and healthcare clients across North America, from discovery and planning through launch and ongoing optimization
- Conducted client kickoff calls to define business goals, gather requirements, and recommend website structures focused on UX, SEO, visual design, and conversion
- Planned and designed website architecture including navigation, sitemap structure, content hierarchy, and user journey optimization for custom websites and landing pages
- Served as the primary liaison between clients, internal teams, and stakeholders, managing revisions, timelines, milestones, and delivery expectations
- Led QA and oversight for a team of 5 designers across 130+ landing page builds, overseeing CRO enhancements, brand consistency, performance optimization, and go-live readiness
- Directed the migration of 130+ landing pages into scalable WordPress systems, improving deployment efficiency by 40% and strengthening long-term maintainability
- Supported B2B website redesign, rebranding, and optimization across corporate digital properties, educational platforms, and broader growth initiatives

Multimedia Designer, The Royal Conservatory of Music

Nov 2021 – Apr 2023

- Designed and developed digital experiences for large-scale audiences, creating interactive web content, multimedia assets, and structured digital materials for LMS and web platforms.
- Built and maintained responsive digital modules using HTML, CSS/SCSS, JavaScript (CoffeeScript), and multimedia production tools, ensuring accessibility, usability, and cross-device performance.
- Collaborated with internal teams, stakeholders, and subject matter experts to translate business and content objectives into engaging digital experiences.
- Produced and optimized video, motion graphics, and digital assets for online platforms, balancing visual communication, user engagement, and brand consistency.
- Applied UX, content structure, QA, and accessibility best practices to improve navigation, usability, and overall digital experience for thousands of users.

Web Developer, Freelance

May 2020 – Aug 2021

- Designed and developed websites, digital assets, and marketing materials for small businesses using WordPress, HTML/CSS, and client-focused design strategies.
- Built responsive websites and branded digital experiences across multiple industries, balancing usability, visual design, and business goals.
- Managed client communication, revisions, project delivery, and ongoing website maintenance across multiple projects.

Digital Media Intern, Benelux Tek Group Inc

Apr 2019 – Aug 2019

- Supported website updates and marketing campaigns, including email template design and content updates.
- Contributed to SEO-focused content updates to improve search visibility and site performance.
